

# Cloud Computing

EscapeWire Solutions Provides A diverse Portfolio of Cloud Based Services. Our philosophy with Cloud Services is to fit the RIGHT solution to the specific needs of the client. 100% of our clients use a hybrid deployment of both Cloud and Premise based solutions. Certain service work great from the Cloud and certain are better served from on premise technology. We fit the right solution to your needs and deliver them with our laser like focus on customer service.

## Hybrid Cloud Backup

Our CoreProtect Service combines a premise based backup appliance with local, on-site backups that are supplemented with a Cloud Based offsite storage for complete data protection and business continuity.

## Office 365

We are an authorized Microsoft Cloud Services partner and can deliver all facets of Office 365 as well as Hosted Exchange and Sharepoint.

## Remote Monitoring and Management

We provide Cloud Based 24x7x365 network monitoring and management ensuring that we have continuous overwatch on your entire network from the firewall down to the PC.

## Internet Perimeter Security

Utilizing a host of cloud based security services we provide perimeter security for your network protecting you against the myriad of Internet based threats that are ever present to even the smallest business today.

*EscapeWire Solutions has been providing I.T. Solutions to clients in a wide range of industries for over 10 years. In that time we have built our reputation on trust, expertise and dedicated customer service. And, because we specialize in small to medium-sized businesses, we know what it takes to keep your company running smoothly. We manage your technology for you so that so that you can focus on what's important to you.*
