

RCSTARWALLMOUNTED

RCSTARFREESTANDING

Touchless Wall-Mounted or Freestanding Digital Signage with Hand Sanitizer Kiosks

Keep germs at bay with the Touchless Wall-Mounted or Freestanding Digital Signage with Hand Sanitizer Kiosks from Rcstars®. Ideal for lobbies, conference centers, shops, and other points of service, the dispenser encourages frequent handsanitizing while eye-catching images and information are displayed. The auto-dispenser allows quick, easy, zero-contact sanitation while the removable drip trays catch excess sanitizer and prevent mess. Keep track of sanitizer levels with the volume indicator, or you can monitor levels remotely. Whether it be a building entrance, café, restaurant, stadium or gym, both the wall-mounted and freestanding units give you the flexibility to place the dispenser in the location of your choice.

Equipped with metal body housing, tempered protection glass, and water-resistant casing, it can handle daily wear-and tear. Present dynamic and targeted messages on the dispenser's large front screen. Give co-workers tips for cleaner hands or stress the importance of frequent hand washing to students and customers. The sanitizer station connects to Wi-Fi and remote management software allows you to update content from a remote web browser. With this wall-mounted dispenser, clean and safe meets convenient.

Features:

- 21.5-in Touchless Digital Signage with Hand Sanitizer Kiosk
- Auto-dispenser allows for quick, easy, zero-contact sanitation
- Sanitizer volume indicator and remote monitoring let you know when levels are running low
- Metal body housing, tempered protection glass, and water-resistant casing provide durability
- Remote Management Software allows content updates from a remote web browser

Encourages frequent handsanitizing AND display important information with eye catching graphics!
